KETTLER GOLF P CYCLE EXERCISERS

- Motor controlled magnetic brake system with 15 stages of resistance.
- Flywheel approx. 9 kg
- Training computer back-lit in blue with 8 pre set programs.
- Permanent display of 8 functions.
- Recovery pulse with fitness rating and target zone training.
- Perspiration-resistant keys
- Pulse measurement via adjustable hand sensors and ear clip (included).
- Inclination of handlebars and cockpit adjustable.
- Comfortable and ergonomic 2-zone-saddle, vertical and horizontal direction as well as inclination adjustable.
- Especially wide and low access, with new gravity pedals with straps
- Height adjustment at rear and new, large transport castors at front
- Dimensions when set up (L x W x H in cm): approx. 100 x 53 x 130
- Maximum load: 150 kg

2530 £362.40

UNIX P ELLIPTICAL CROSS TRAINER

- Magnetic brake system offering 15 electronically controlled stages of resistance
- Flywheel approx. 20 kg
- Back lit LCD with 10 programs including HRC
- Target zone training (fat/fit/manual). Recovery pulse and fitness test.
- Continuous display of 8 functions
- Integrated POLAR compatible receiver
- Visual and audible alarm when exceeding max pulse rate
- Approx 16 inch stride length
- Pendulum ball bearing in disk joints
- Perspiration-resistant keys.
- Adjustable treads
- Transport castors at front and height adjustment at rear
- Dimensions when set up (L x W x H in cm): approx. 144 x 56 x 152
- Maximum load 150 kg

2531 £625.40

COACH M ROWER

- Magnetic resistance in 10 stages.
- Integrated POLAR receiver (included)
- Continuous display of 6 functions including time, distance covered, oar strokes and energy consumption
- Visual and audible alarm for upper pulse limit
- Flywheel 6 KG
- Pulse recovery fitness test, target settings and average values at end of session
- Target zone training (fat / fit / manual)
- 18 additional strength and fitness exercises possible using included padded board
- Unit stands on its side to ensure small footprint, saving floor space
- Size when set up (L x W x H cms) 206 / 53 / 67
- Max user weight 130 KG

2545 £499.00

PACER TREADMILL

- Blue back lit LCD with continuous display of 6 functions
- 7 training programmes
- Integrated POLAR receiver and hand sensors for pulse measurement
- Motor with 2.8HP peak power, 1.6 continuous
- 3 x direct speed, 3 x direct incline keys
- Speed = 0-16kph in 0.1 kph steps
- Incline = electronic adjustment 0-10%
- Size of running surface (L x W cms) 132 x 48
- Sweat resistant key pad
- Size when set up (L x W x H cms) 182.5 / 80 / 134
- Size when folded (L x W x H cms) 94 / 80 / 157
- Shock absorbers ensure low impact
- Max user weight 120 KG

2030 £619.00
