

Rock-It-Ball is played with a 'Rock-It' which is a control bar with a thrower/catcher on each end. It can be played in several ways but the format which is proving most popular is Rock-It-Ball Combat Xtreme. Two teams of four players play with four low-impact balls and fire the balls at each other. Hitting the opponent with a ball scores one point but if the opponent catches the ball in the catcher he gets two points. As four balls are in use players find they have to constantly be on the move and on the lookout. The game also encourages players to get involved because if they don't pay attention they are likely to be hit with the ball'.
